- **Cellphones:** These are not permitted at the school. In the case that the student needs to bring their cellphone to the school for use after the end of the school day, parents should send a written permission form with the reason for its use. In this case, the student should hand in their telephone to the office at the beginning of classes and they will get it back from the office after the end of classes. For students who do not comply with these rules, disciplinary measures will be taken.
- **Electronic Devices (laptops, kindle, iPod, etc):** The use of these devices is not permitted at the school. If the student is required to use one of these devices, the parents will be notified in writing. Teachers will provide the student with a written permission form specifying the date and subject in which the device will be used. Students should hand in the electronic device to the teacher at the beginning of classes and the teacher will keep the device until the time for its use, and then until dismissal.
